

GUIDELINES FOR PRESENTING AUTHORS: NOFE CONFERENCE 2019

Language: English

ORAL PRESENTATIONS

A total of 15 minutes is available for each abstract. This includes time for introduction of the speaker and 2 minutes for discussion after the presentation. We therefore ask you to spend no more than 12 minutes on your oral presentations. You will be notified by the session chair when you have two minutes left.

Please bring your presentation on an USB-stick and download a copy to the PC in the assigned room before your parallel session starts.

POSTER PRESENTATIONS

Posters should be printed in portrait orientation, and the preferred size is A0 (841 x 1189 mm). The width of each poster must not exceed 1 m.

There will not be free-standing poster walls at the conference venue, and posters will be adhered to the outside of the glass walls of the plenary room (Nordkapp). Directions and special tape will given at the registration desk.

Posters should be displayed throughout the conference. Time has been allocated to poster viewing from 11.00 to 11.30 am on November 14 (2nd day of conference) and we ask that the presenting authors are available to answer questions during this time.
