

Time, date and place

Young Investigator Day is scheduled for the 14th of October 2024, and will be organized as a 4-hour workshop, starting at 11:00 (tentatively).

After the workshop, we will arrange for a social dinner at no extra expense for the participants.

Topic

The topic for the workshop is "**Genetic relatedness**".

What does it mean to be related? How is relatedness measured? Why are some siblings more equal than others? Join the workshop to find out! The workshop will be led by senior scientist Magnus D. Vigeland, PhD, from the Department of Forensic Sciences, Oslo University Hospital.

Enrollment

Priority for YID enrollment is given to PhD and master's students. Applicants will receive acceptance notifications by 20.09.24. Any remaining places will be offered on a first-come, first-served basis, also including Post Docs and other researchers. **Registration is binding.**

Location

Young Investigator Day will be held at The Cancer Registry of Norway. The nearest bus stop is "Montebelloveien" (5 min walk), and the nearest metro stop is "Montebello" (15 min walk).

Transportation

From Oslo Airport Gardermoen:

Take the train to Lysaker, then change to bus 23. Alternatively, take the airport bus FB3 directly to Montebelloveien.

From Oslo Central Station:

Take the metro line 2 or 3, direction west, to Smestad, then change to bus 23, 24 or 28 to Montebelloveien. Alternatively, take metro line 3, direction west, directly to Montebello.

Contact

For any unforeseen circumstances, please contact us at post@nofe.no, marking the email with "YID".
